

MIKE ZONNFELD

Biography

Mike Zonnefeld has always been interested in aviation and electronics. As a boy, he obtained his amateur radio license, and learned to fly. He joined the USAF where he was a rocket sled and flight test engineer for cutting edge electronics and aircraft. He spent 34 years with Rockwell Collins as a technical writer, representative, pilot, sales manager, and retired as a Regional Sales Manager. His many years of experience include avionics installation, flight testing, certification, customer service and sales. He has managed completions for Challenger 604, Challenger 300, and Global Express XRS aircraft for several customers. His efforts have saved a substantial amount of money and resulted in a high quality aircraft that was delivered on time. He brokers used corporate turbine aircraft. He is a Multiengine Rated Commercial Pilot, Flight Instructor, Flight Instructor Instruments, has Part 135 experience, and has logged some 4000 hours.
